

# HELOPOD™

BY

**PUMP-POD  
USA**

**(844) 766-5763**

[www.PumpPodUSA.com](http://www.PumpPodUSA.com)

## MISSION/PURPOSE

The HeloPod System is the next generation of Helicopter and ground attack support equipment.

This versatile and transportable unit requires no assembly for rapid setup with as few as one person.

This unique ability enables the unit to be redeployed on a moments notice to forward Heli-Spot for dynamic response.

When the HeloPod is prepositioned seasonally, it can be left empty until activated by either the Optional Electronics Package or ground personnel.

When employed as a cistern on existing designated Heli-Spots, the unit can serve to support ground units/operations.

High-Flow automatic fill/refill capability allows for continuous support of type I, II and III Helo's.

## DIP TANK / CISTERN

## TANK SPECS

**4,000** gal. U.S.

Tank Dim: 5'-6"H x 8'W x 16'L

Overall Dim: 8'W x 23'L

Storage Locker Dims: 160 cu.ft.

**7,000** gal. U.S.

Tank Dim: 8'H x 8'W x 16'L

Overall Dim: 8'W x 20'L

Storage Locker Dims: 220 cu.ft.

## STANDARD FEATURES

- 4" FNH Quick-Fill/High-Flow Fill Valve with Level Control Float
- 4" FNH Universal Fill/Drafting Port
- Supports Retardant or Gel operations
- Hydrant Hose Storage Racks

## OPTIONAL FEATURES

- Optional Electronics Package
- Interior Tank Lighting
- Exterior Tank Lighting
- Hose Storage Racks
- 3" NH Transfer Pump(s)
